

DHRUV GUPTA

SOFTWARE ENGINEER (ANGULAR) | ANGULAR DEVELOPER

Noida • +91 8887516142 • dhruv.gupta6142@gmail.com • [LinkedIn](#) • [Github](#)

SUMMARY

Results-driven Angular Developer with 3+ years of experience designing and developing scalable, high-performance web applications across logistics, pharmaceutical, and banking domains. Expert in Angular, Typescript, and modern front-end technologies with proven ability to deliver complex UI solutions, optimize application performance, and lead development initiatives. Strong background in agile methodologies, CI/CD pipelines, and cross-functional collaboration.

TECHNICAL SKILLS

Category	Key Technologies
Frontend/Frameworks	Angular 14+ , Angular CLI, TypeScript , RxJS , JavaScript (ES6+), HTML5, CSS3/SCSS
UI Libraries	Angular Material , PrimeNG
Testing	Unit Testing , Karma/Jasmine
Backend/APIs	Node.js , Express.js , RESTful APIs , WebSocket APIs , MongoDB
Tools & DevOps	Git, GitHub/GitLab , VS Code, Postman, Jira , Agile/Scrum
State management	Behavior Subject, Observable patterns
Specialized	IoT Integration , Electron , Kafka , Electron Delta Updater

WORK EXPERIENCE

Software Engineer – UI I

FCI-CCM Private Limited, Noida

Oct 2022 – Present

Smartbox Terminal Application

Technologies: Angular, RxJS, Electron, WebSocket, REST APIs, Kafka, Node.js, IoT Integration.

- Developed a desktop terminal application enabling courier package drop-off and pickup through Smartbox lockers.
- Implemented real-time hardware monitoring for lockers, barcode scanners, and cameras, improving operational reliability.
- Architected and delivered a responsive Angular-based web application to manage 500+ smart parcel lockers across multiple locations, reducing delivery and retrieval time by 35%.
- Engineered 50+ reusable Angular components and services using modular and scalable design patterns, increasing code reusability by 40%.
- Integrated 15+ RESTful APIs with robust error handling and authentication using Angular HTTP Interceptors, improving system stability.
- Resolved high-priority production issues within 24 hours, ensuring 100% uptime and uninterrupted customer experience.

Smartbox Dashboard Application

Technologies: Angular, PrimeNG, RxJS, REST API, Payment Integration

- Developed an Angular 14+ and PrimeNG-based admin dashboard to manage 1,000+ Smartbox lockers with real-time monitoring and remote control operations, reducing manual intervention by 40%
- Built an interactive and data-driven UI using PrimeNG, featuring locker and parcel statistics visualization to enhance operational efficiency and decision-making.
- Integrated REST APIs for user management, terminal layout configuration, and dynamic system updates.

Build Manager Application

Technologies: Angular, Node.js, Express, MongoDB, WebSocket, REST API, Kafka, Electron Delta Updater.

- Designed and developed a centralized dashboard and server system to automate build creation, deployment, and version control for desktop applications.
- Optimized deployment efficiency by supporting incremental builds through delta version chunking, reducing build time and bandwidth consumption.
- Implemented a 5-step automated workflow encompassing branch checkout, dependency installation, Electron build generation, and real-time WebSocket updates.

EDUCATION

Master of Computer Application (MCA)

Post Graduation: 2022

- Galgotias University, Greater Noida
- GPA: 8.0 | Relevant Coursework: Software Engineering, Database Management, Web Technologies.

Bachelor of Computer Application (BCA)

Graduation: 2020

- Mahatma Jyotiba Phule Rohilkhand University, Bareilly
- Percentage: 63% | Focus: Computer Programming, System Analysis.

ACHIEVEMENTS

- Increased update efficiency by 30% by automating patch deployment workflows and introducing real-time monitoring dashboards.
- Reduced bug resolution time by 25% by optimizing debugging workflows and improving test coverage.
- Awarded the **Team Player Award** for leveraging exceptional cross-functional collaboration to streamline end-to-end development workflows and consistently exceed project delivery timelines.
